DETAILED ACTION

1. This Office Action is in response to the amendment filed by the Applicant on 11/24/2004.
2. Claims 1 – 16 are allowed.

Drawings

3. The drawings were received on 11/21/2000. These drawings are acceptable.

Reasons for Allowance

6. The following is an examiner's statement of reasons for allowance:

Prior art of record, taken either singly and/or in combination, does not teach or suggest a computer, a method, or a program in independent claims 1, 8, and 13 respectively.

The following claimed features are not taught or suggested by the prior art of record:

The cited prior art taken alone or in combination fails to teach a spare slot into which a instructions associated with a correctness function can be inserted, and a determination of a number of additional instruction slots that may be added to the initial instruction schedule without exceeding a run-time performance cost tolerance level.

The closest prior art is Houldsworth, which checks the instruction schedule for spare slots, but does not insert instructions associated with a correctness function, nor does it disclose determining a number of additional slots that may be added without exceeding a cost tolerance level.

Thus all remaining dependent claims:

Claims 2 – 7 depending on claim 1,

Claims 9 – 12 depending on claim 8, and

Claims 14 – 16 depending on claim 13 are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
